LANGUAGES:

SPANISH
ENGLISH
PORTUGUÉSE

EXPERIENCE:

Liftel (2025)

Internship

Developed multiple backend services using the Gin framework (Go) to deliver fast, secure, scalable, and high-performance solutions for the elevator industry, supporting internal operations and enabling clients to remotely monitor and manage their elevators via the cloud.

ABOUT ME

I am a junior developer with a proactive approach to software development. My curiosity and eagerness to learn drive me to continuously improve my programming skills. I'm currently living in Lima, Perú.
